ITALIAN LUXURY REFINED IN AMERICA[®]

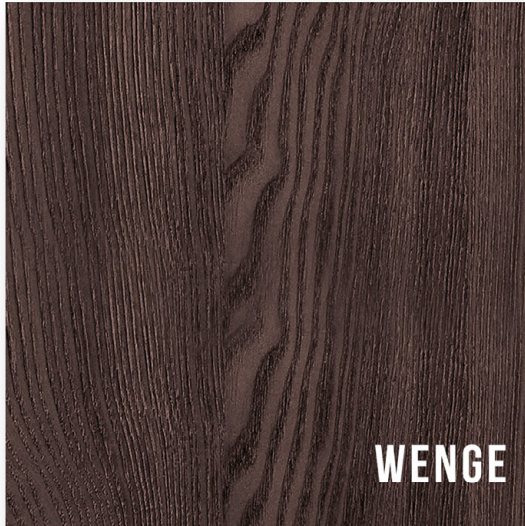

Italian sophistication and functionality have characterized our custom luxury closet collections since 2005. Based in Miami, our manufacturing facility allows ViSSER to proficiently furnish the American closet space with contemporary Italian design aesthetics.

We are a family-owned business committed to excellence and client satisfaction. Recognized for our unrivaled craftsmanship, fast turnaround and personalized installation, ViSSER is continually contracted by interior design professionals and large real estate developers in Florida.

We are passionate about beauty, form and function. Our closets are made to perfectly conform to our customers' needs and lifestyles. ViSSER offers countless custom layout solutions and exclusive finishes and accessories to tastefully transform every closet space with elegant modularity – an artisan design philosophy that has distinguished our craft for more than a decade.

FELIPE ViSSER | Founder

viSSer | CUSTOM FINISHES:

OPTIMAL

NUVOLA:

Like clouds in the sky, every shelf, drawer and personal compartment appear to be suspended in midair. Designed with the American walk-in closet in mind, our NUVOLA luxury closet line redefines functionality as refinement edged in clean lines.

NEO:

Our NEO custom luxury closet line blends modern aesthetics with perfect organization. The center island design broadens our most spacious walk-in closet configuration with elegance and personality.

LUCCA:

The transparency and gloss of its glass doors reflect the level of sophistication of our LUCCA custom luxury closet line. Modularity and beauty designed to turn the American walk-in closet space into a glamorous and personal environment.

MIMO:

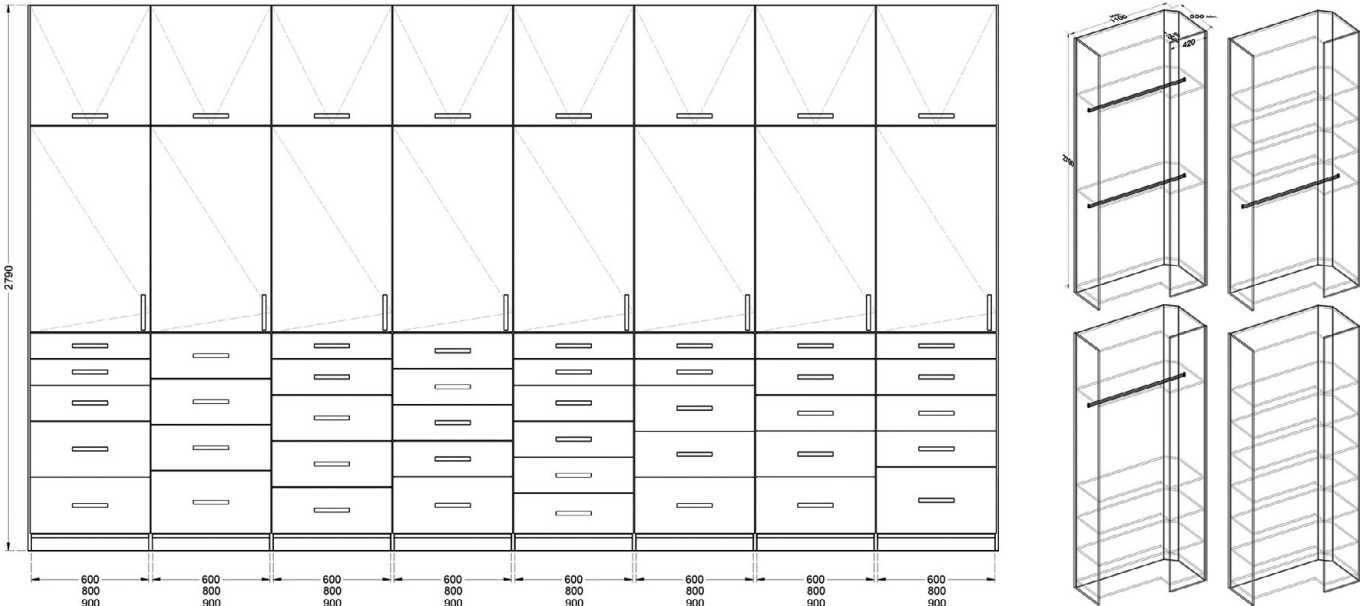

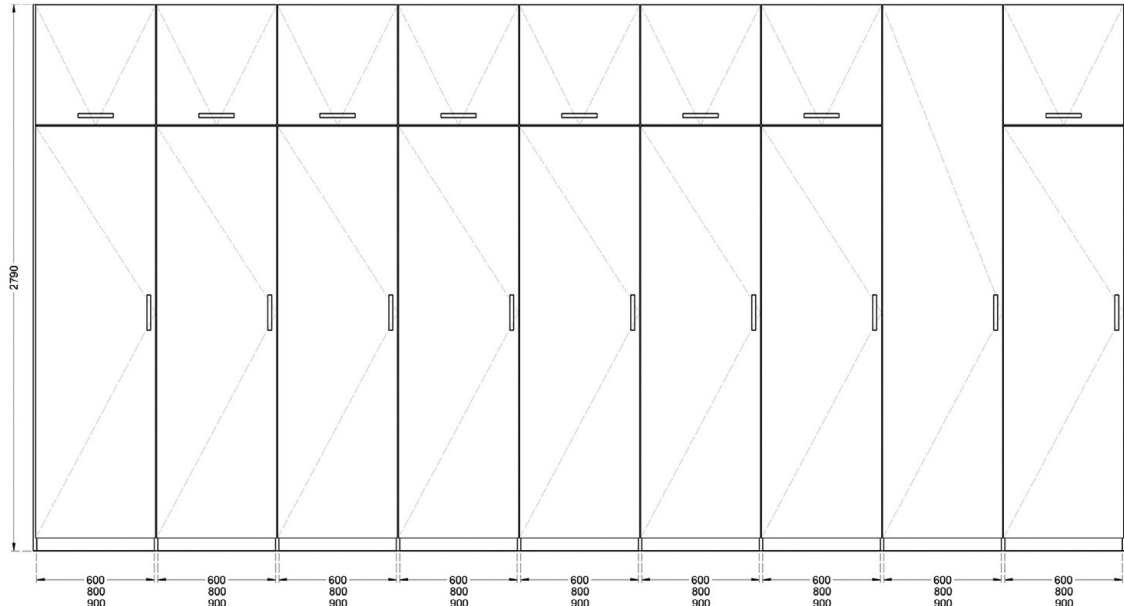

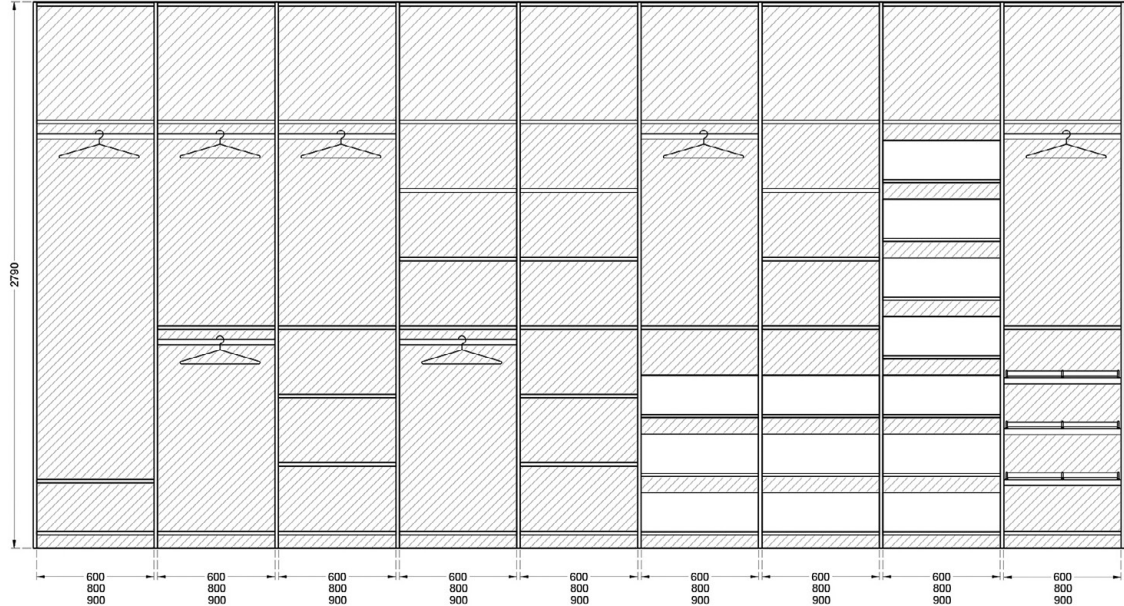

Our MIMO custom luxury wardrobe closet line can be incorporated into every space with seamless integration. Elegance that fits in any room size, even if there isn't a designated area for it in the floor plan. Functionality and style designed to become one.

MODULARITY:

We tailor our custom luxury closet lines, NUVOLA, NEO, LUCCA and MIMO to maximize the entire closet space. Functional corner modules connect adjacent closet segments. Refinement and modularity without constraints.

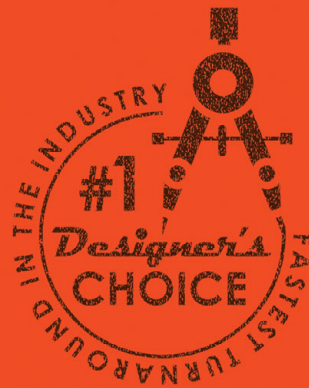

COMMITMENT

We are committed to preserving our natural resources. Our Italian wood supplier saves close to 10,000 trees every day by recycling 1.5 Million tons of recovered and secondary raw wood every year. Our "Ecological Panels" are made of 100% recycled wood - a conscious manufacturing practice designed to serve our planet.
